

# Test Gorilla

**Hiring the best. Made easy.**

**VACANCY:  
TEST DEVELOPMENT MANAGER**

## ABOUT TESTGORILLA

We make hiring the best people easy and unbiased, offering screening tests at an affordable price. Using TestGorilla, our customers save valuable time, make hiring decisions objectively, and avoid expensive mis-hires.

Our tests are developed by deep subject matter experts. They get rewarded when their tests are used, and we help them make their tests better. This way we can offer the highest quality and widest range of tests in the market.

We just closed a €1mln seed round and work towards our launch in April 2020.

## TEST DEVELOPMENT MANAGER

Your goal is to expand our test library with high quality tests that our customers are looking for. You help to recruit the right subject matter experts, and coach them to build a test that is reliable and predictive of job success.

### You

- Share our passion for helping companies hire the best, easy and unbiased
- Know what great looks like
- Have excellent English writing skills
- Are sort of a data geek
- Get a lot done
- Appreciate the extremely varied needs of a startup – no ambitious project will scare you away, no mundane detail is beneath you
- Have a BSc or MSc degree
- Experience with developing tests is a plus

## OUR OFFER

- The opportunity to work in a VC backed, promising HR tech startup
- As an early employee, you will have a huge role shaping what TestGorilla becomes
- The co-founders are your coach
- Your hours are flexible, and so is your vacation
- You can work wherever you want – we work remotely
